Unique Features

These units can be used Wet or Dry with a thermostatically controlled well. They can even be filled with ice to display cold food.

The stainless steel hood contains an Infra-red heating element controlled by an adjustable simmerstat. The hood also has a concealed LED light to illuminate the dishes, this is switched independantly of the heating to allow for illumination of hot or cold displays.

Glass ends give a 360 degree visibility and spacious apperance. Optional front or back glass, as either solid or sliding doors, Sneeze guards are also available.

Bain Marie tanks are made from stainless steel, fully insulated and fitted with rear facing drain valve.

All units are sized based on half size gastronorm dishes 65mm deep, all units can be fitted with divider bars

FD 2x2 has 2 rows of 2 x half dishes
